### Information for Authors

#### **ABSTRACTS**

Jakub Bulik

#### **CLASS DIVISION OF THE INFORMATION SOCIETY**

The article discusses class division of the information society, caused by development of modern communication. Author presents features influencing social diversification (like education level, place of live), selects and characterizes levels of information society classes (new proletariat, cognitariat, digitariat). He mentions influence of the information society's diversification on interpersonal relations, within families in particular. A new type of a society will also influence changes (i.e. simplification) in contents and forms of media transmission.

Jadwiga Woźniak-Kasperek

#### **CONTENTS, DOCUMENT, OBJECT, RESOURCE – PROBLEMS NOT ONLY TERMINOLOGICAL**

The article presents reflections concerning a few transformations of the information society, as seen in terminology of modern library and information science in Poland. The authors discusses issues arising around terms: contents, document, information object, digital object, and resource.

Justyna Adamus-Kowalska

#### **FUNCTIONAL CLASSIFICATION'S APPLICABILITY IN MANAGING ACTS AND ARCHIVAL INFORMATION**

The article describes classification as a tool of indexing archival information used in documentation management, of librarianship background. The author focuses on the possibilities of classifying modern documents under currently binding rules. She presents the significance of classification as an information-retrieval language in archival information.

Aneta Katarzyna Ostrowska

#### INFORMETRIC ANALYSIS OF AN OPEN ACCESS ELECTRONIC JOURNAL – EXAMPLE OF “THE EBIB BULLETIN” VOL. 4

The article comprises of the part of the awarded MA thesis *Informetric analysis of an Open Access electronic journal – “The EBIB Bulletin” example*. The author discusses informetric analysis of this journal, its history and contents. She presents informetric and webometric data as well as statistics of visits, which prove that “The EBIB Bulletin” is a high quality journal of national range, influencing strongly the LIS professions.

#### BIBLIOGRAPHY OF THE “ZAGADNIENIA INFORMACJI NAUKOWEJ” 2005-2010

Anna Stanis

Bibliography of the „Zagadnienia Informacji Naukowej” journal for the years 2005-2010 comprises of the list of articles, reviews, and reports published within. It’s subject arrangement is further adapted to the journal’s structure ( I. Thesis – research – materials; II. Reviews; III. Chronicle), descriptions ordered alphabetically according to authors’ names. Bibliographical descriptions are accompanied by two keywords taken from an article. The bibliography is annexed with names and subject indexes. This bibliography is a continuation for the one for the years 1999-2004.
